CUT-TO-SIZE & DELIVERED TO YOUR DOOR!

Visit us online at www.theplasticpeople.co.uk

Secondary glazing is a cheaper double-glazing alternative that keeps your room warm and helps stop condensation on windows. This is the perfect secondary glazing solution for renters, or those of you who don't want the cost of replacing your windows. Your DIY double glazed windows will be easy to install.

SCAN ME

Keep the cold out by improving your window insulation. Our window insulation kits will help you save on heating by adding a second layer of glazing internally to your windows.

Secondary glazing provides an extra layer of protection from your home to the cold, it saves you money on heating bills, virtually eliminates condensation and also helps to reduce draughts from outside. All the while

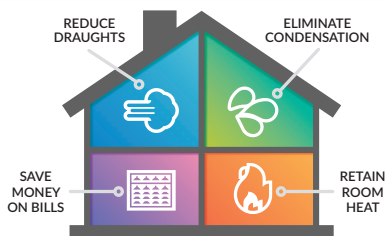

keeping the character of your existing windows.

The magnetic secondary glazing kit available right here at The Plastic People is one of the simplest and quickest ways to secondary glaze your existing windows without any planning permission or expense.

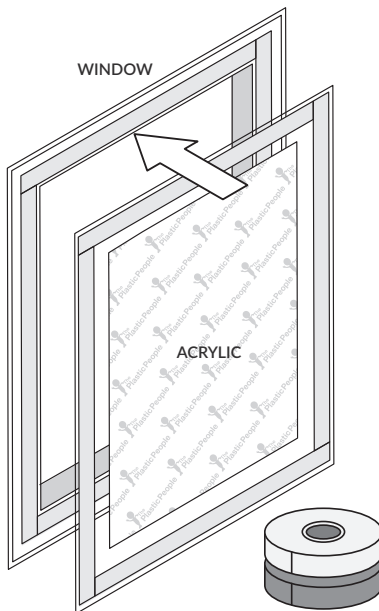

DID YOU KNOW...

The lifespan of your secondary glazing will be up to 10 years before any discolouration.

This glazing kit consists of an acrylic window panel and one steel and one magnetic roll of tape. The tape is used to hold the acrylic window pane in position.

■ Standard Delivery £9.96 | Named Day Delivery £24.00 | Next Day Delivery £33.00

Note: Your protective film may be Blue in colour, this needs to be peeled off on both sides!

Secondary Glazing

MAGNETIC DIY KITS

Protect your tables and surfaces from scratches and spills with our made to measure plastic table protectors. Made from our clear as glass acrylic, our plastic table protectors looks like glass but are 10x stronger and indeed much safer. If dropped - will not shatter like glass into sharp, tiny and hard to find shards.

SCAN ME

Clear acrylic furniture protectors are popular with customers of The Plastic People – with people using them in their homes to cover all kinds of items from desks, coffee tables, dining room tables, dressing tables and sideboards.

Because they can be polished to a high shine, clear acrylic furniture protectors also bring a little look of luxury into their homes.

Acrylic table protectors are also especially useful for events and celebrations such as birthdays, weddings, Christening receptions,

Christmas and New Year when the table is a key focus – dressed to impress, adorned with arrangements and decorations.

Acrylic can also be used as protection for outdoor furniture. Most wood and metal garden furniture requires some maintenance cleaning every year and protection throughout harsher winter weather.

Standard Delivery
£9.96

Acrylic table top protectors can be kept in perfect condition with the use of acrylic polish. Failing that, use warm soapy water to wash the acrylic to a nice shine. You should always avoid using chemicals as this can do more harm to your table top protector than good.

DID YOU KNOW...

Perspex also offers a high level of abrasion, shock and flex resistance so you can be sure it's going to last.

CUT-TO-SIZE & SHAPE Furniture Protectors

Trustpilot 4.8/5

We stock a wide range of premium wall cladding online, available in various colours for every DIY project you can imagine. A high-quality, hygienic cladding system known for its durability and long lasting effect even in the most extreme environments, our cladding is perfect for bathroom environments.

SCAN ME

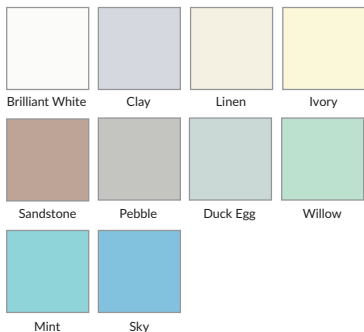

SATIN PASTEL RANGE Premium Wall Cladding

Our satin range offers a calming palette of pastel colours for all situations, helping to keep areas clean, fresh and bright with subtle tones and an easy clean surface.

Fire rated with the additional benefit of being food approved for hygienic hard-wearing environments. Key temperature ranges of (+60 to -0°C) make this cladding formidably robust but easy to cut, glue and seal.

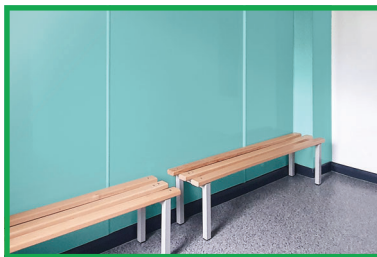

Our satin uPVC wall cladding is suitable for hygienic applications

such as: Kitchens, Bathrooms, Gymsnasiums, Dental Practices & Hospitals. All hygienic and hard-wearing.

Features

- Fire rated to self-extinguishing.
- High chemical resistance.
- Cost effective and easy to install.
- Complete hygienic wall protection.
- Food contact approved.

DID YOU KNOW...

We have a free PDF download guide on how to plan, measure and install your cladding for best results.

To compliment your satin wall cladding project don't forget your colour-co-ordinated range of premium profile joining strips (opposite) including internal and external corners for a seamless, professional finish. And don't forget our range of adhesives.

To compliment your satin wall cladding project don't forget your colour-co-ordinated range of premium profile joining strips including internal and external corners for a seamless, professional finish. Not only adding aesthetic appeal but also fire rated and self-extinguishing for peace of mind.

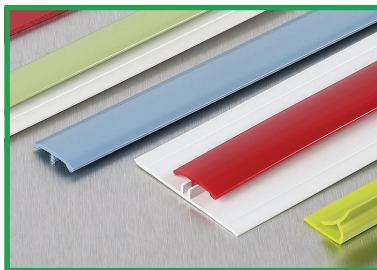

SCAN ME

Finishing Profiles

Profiles really add a professional look to a project and create a watertight seal between your cladding sheets working as a barrier against moisture and bacteria so perfect for bathrooms and wet room environments.

Our colour co-ordinated profiles include: Brilliant White, Clay, Linen, Ivory, Sandstone, Pebble, Duck Egg, Willow, Mint & Sky and will match all our wall cladding sheets.

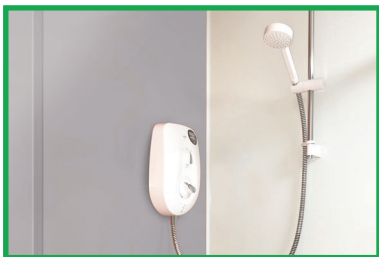

DONT FORGET...

For a limited time online we're offering a **FREE** cut-to-size service on wall cladding panels.

Adhesives & Sealants

To compliment our new range of premium wall cladding we have two new adhesives perfect for the job of

working with food safe and flame retardant uPVC material.

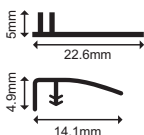

Premierbond HT Hybrid MS Polymer Adhesive is a premium quality, professional adhesive based on hybrid MS polymer technology & Premierbond 2-Part Adhesive 6.5Ltr is a two-component polyurethane adhesive.

Both are designed primarily to compliment working with this uPVC material.

If you're looking for a large display box to show off your LEGO Millennium Falcon or a bespoke shape for your entire LEGO collection, our range of acrylic flat-pack display cases will appeal to the avid LEGO collector or model-maker alike. These model display boxes are available in a range of sizes.

SCAN ME

So whether you're a model airplane aficionado, an action figure collector, or a fan of colourful construction toys our clear display boxes will really accentuate your model or figurine displays!

All whilst offering UV protection (90%) without yellowing or fade. Keep inquisitive young fingers at bay with an action figure display case. An acrylic display showcase can be a great centrepiece for a room!

For all you sports fans out there who want to display autographed items like balls, bats, boots, boxing gloves and general sportswear, we have the perfect display box for you.

DID YOU KNOW...

All our clear-as-glass acrylic display cases are flat-pack for your convenience.

Manufactured from 3mm clear-as-glass acrylic with smooth edges for maximum aesthetic impact,

this freestanding case comprises of a six-sided crystal-clear acrylic construct with a clear removable lid that locks into place via corresponding tabs.

All our display cases will protect your model from dust & will block harmful UV light so you don't need to worry about discolouration.

Model Display Cases

CLEAR & MIRRORED BACK

Note: Your protective film may be Blue in colour, this needs to be peeled off on both sides!

Two pieces of acrylic are used to effectively 'trap' your artwork or photographs and give them the appearance of floating framelessly on the wall. The acrylic frames for pictures fix to your wall with either screws or wall mounts which will make your acrylic frame stand 25mm away from your wall.

SCAN ME

All of our plastic picture frames are also very light in weight and yet much stronger than glass. Should they be dropped, they will not shatter like glass either so make for a safer alternative.

If you would prefer to order frames which are larger than your print size and allow a clear border around the print then please enter the size of your image plus the size of your desired border.

For example, if you would like a 50mm border then add 100mm to your length measurement and 100mm to your width measurement. This will give a 50mm border at each side.

We also sell a range of popular 'A' sizes and also offer a bespoke cut to

size service where you can order the frame to the size you need.

If you have artwork and photographs to display and are a fan of clean, modern design, then chances are you'll love this style of framing. Made from crystal clear acrylic, these frames appear to float and give any space that sleek, art gallery feel.

Even better, the look is surprisingly easy to create and delivers a high-end impression at a low end price - we'll show you how to do it.
